

MORITO SCOVILL

TRUNK CARGO NET

Features & Benefits

Depending on the application, we propose telescopic and non-telescopic cargo nets.

TONOBOARD HANGING STRING

Features & Benefits

In addition to conventional braids, we provide strength and specifications according to the application. It is also possible to manufacture knitted strings by utilizing our knowledge in net manufacturing.

MORITO SCOVILL

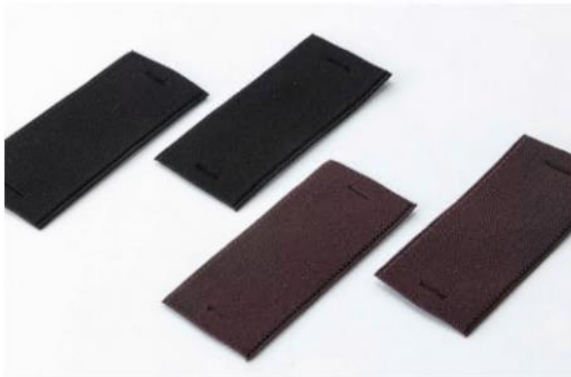

STRAP

Features & Benefits

We offer fiber weaves, synthetic leathers, special weaves, and various variations of straps. Depending on the application, drilling, sewing, and printing can be performed.

ELASTIC STRAP FOR FIXATION

Features & Benefits

We can respond to your request, strength and performance. Secondary processing such as ultrasonic cutting, drilling, and sewing is also supported.
